

Read the text.

There are a lot of sea animals under the sea. Today the pink octopus is very sad because its friend, the young seahorse, is playing with the small orange fish. The big red fish is swimming to the big grey rock. The purple octopus is very happy. It's sitting behind the rock looking at the small orange shell. There's a white pearl in the shell. The seaweed next to the big yellow shell is green and the short seaweed is brown. The old seahorse is the young seahorse's granddad. They are blue.
